Town Warrant

STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Epping, in the County of Rockingham, in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Town House, in said town on Tuesday, the fourteenth day of March next, at nine of the clock in the forenoon, to act upon the following subjects.

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

3. To see what sums of money the town will vote to raise and appropriate for the support of the Public Library.

4. To see what sum of money the Town will vote to raise and appropriate to defray Decoration Day expenses.

5. To see if the Town will vote to raise and appropriate the sum of fifteen dollars for winding and care of church-tower clock.

6. To see if the Town will vote to raise and appropriate the sum of \$2,500 for the Trunk Line on condition that the State contribute an equal amount.

7. To see if the Town will vote to raise and appropriate the sum of \$450 for maintenance of Trunk Line on condition that the State contribute an equal amount.

8. To see if the Town will vote to raise and appropriate the sum of \$225 for maintenance of State roads.

9. To see if the Town will vote to accept in trust a legacy bequeathed the town of Epping by the late Celia E. Stevens, to provide for the care of a cemetery lot.

10. To see if the Town will vote to sell to Eugene J. Purington a parcel of land situated at West Epping, formerly owned by the heirs of Elijah Purington and sold for taxes to the Town in 1909.

11. To see if the Town will vote to exempt the Lord-Walker

Co. from taxation on its machinery, lumber, and stock in trade, for a period of ten years.

12. To see if the Town will vote to place a suitable number of electric lights on road leading from L. P. Ladd's house on Mill hill, opposite ball grounds, to the residence of James D. Whittemore, and from Joseph Jannell's to the residence of Mrs. St. Lawrence.

13. To see if the Town will vote to place one electric light between the store of W. R. Morris and Schoff Street, so-called.

Given under our hands and seal, this twenty-sixth day of February, in the year of our Lord, nineteen hundred and sixteen.

Report of Board of Health

EPPING, N. H

To the Selectmen and Inhabitants of the Town of Epping:

The undersigned members of the Board of Health of Epping, serving until June 1, 1915, respectfully present the following report of their doings and the condition of the town in a sanitary way. There has been quite a bit of cleaning up at the instance of the Board and we are pleased to report the condition better than ever before, though much remains to be accomplished before a perfect spotless town can be obtained.

We have long thought that a single responsible officer could do more than any triple headed board, responsible to nobody, and in vacating our positions we congratulate the town on having an opportunity of testing out our opinion.

Respectfully presented,

ALBERT C. BUSWELL, M.D.

A. D. BROWN.

GEORGE A. GILMORE.

I herewith submit my report as Health Officer from June 14, 1915, to February 15, 1916. At the last session of the legislature a law was passed abolishing all town boards of health and creating the office of Health Officer; in conformity with this law I was appointed Health Officer by the State Board of Health June 14, 1915. A law was also passed providing free antotoxin to towns and cities. As requested by the State Board of Health I attended the conference of the state and local health officers at Concord where we were instructed to enforce the following laws: The common drinking cup act,

common towel act, the sanitary management of barber shops and the compulsory vaccination act. I inspected the barber shops, hotel, and all the school houses, and at each place notified them that the law would be enforced and left a copy of the law. I visited every school in town and ordered all children to present to their teacher a card furnished by the state, showing that they had been successfully vaccinated, and I am pleased to report at this time that all have complied with the law. There have been several complaints made which I have investigated. I have also notified several owners of pigs that hereafter none will be allowed kept in the compact part of the town. The town has been fortunate. We have had but two contagious diseases. A clean-up week was tried with great success, and at this time I would advise and ask all citizens to unite with me in the coming year and have a clean-up week in the spring and one in the fall.

Respectfully,

GEORGE A. GILMORE, *Health Officer.*

The curriculum shows a slight change as compared with last year's, viz., Commercial Arithmetical and Book-keeping are offered in place of Advanced Arithmetic, while the course is also offered to fourth-year pupils. It appears that one or two other changes might be made to advantage. Our high school course at present, it would seem, follows too closely the emphasis placed upon Language and Mathematics which has been the rule in the past, but which is largely changed at present. As the course is arranged at present, about the only electives we can offer the student who does not take Latin are Advanced Algebra and Solid Geometry, both subjects as purely of the college preparatory stamp as Latin itself. We can relieve this by substituting a course in general science, Geology and Astronomy, in place of Solid Geometry, and by putting in Commercial Law and Economics in place of Advanced Algebra. This would not in any way weaken our college preparatory course, as the courses mentioned command equal credit in our colleges with those whose place they would take, while it would make a much broader course for those who do not intend to enter college.

During the current year a water supply has been installed which is greatly appreciated. A system of permanent records has been undertaken. Such records are an absolute necessity

in any high school. Twenty-five dollars worth of equipment has been added to our Physical laboratory. This small sum, through careful expenditure, has enabled us to greatly improve our laboratory work.

There is a distinct need of further library facilities in connection with our work in History. In a rural community, however, it is unwise to attempt to maintain a school library apart from the general library. I would recommend that all additional books, which are secured through any source whatsoever, become the property of the public library and that arrangements be made whereby the school would have undisturbed use of such books during the few weeks when they were needed. This plan has two distinct advantages. First the books would have better care in the public library than in the schoolroom where it is often impossible to keep them under lock and key and where it is often difficult to trace a book which has disappeared, and second, they would be accessible to the general public during the greater part of the year. The public library has already granted us privileges which have enabled us to use to the utmost such books as are serviceable in our school work.

Our register shows an average attendance of 27 pupils for the current year.

Respectfully submitted,

WOODBURN P. HARRIS, *Principal*.

During another year the educational welfare of the children of our town has been the chief concern of your committee. It has been our supreme purpose to arouse the activities of the child and point out to him his possibilities. Educational energy too often remains latent during a whole life, much to the detriment of the individual and also of the community in which he may reside. Before educational progress can be at its maximum, the home must constitute a very important factor. The parent should ever be on the alert to encourage

the child through frequent visitations to his school and a general interest in his work. High ideals and a healthy environment will work marvelous results. Your superintendent has been much gratified, during the past year, especially because of the increased number of inquiries relative to the educational progress of certain children, and he and the parents have endeavored to so co-operate in each case as to be for the best interest of the child.

During the twenty-three years in which your superintendent has been more or less connected with your schools, no time was ever so promising for great results as at the present, for at no time has the general interest on the part of pupils been so great. Environment has played no small part in arousing this interest, through the new building for the grades and through the renovation of the school building at West Epping. The new building is exceptionally fine and removes a long-felt want. We are pleased to state that the building committee were very faithful in the performance of their duties, a fact that was clearly brought to light when your committee made a careful inspection of the building. You will note elsewhere in this report, the district received over six hundred dollars from the State this year. A good portion of this money was apportioned to our district on account of our "percentage of attendance." The three pupils who helped *most* to increase our apportionment you will find in the Roll of Honor, for the "entire year." Those three pupils were *exceptionally* loyal to our financial welfare, but all the names found there were loyal and we appreciate their loyalty in this regard. Now then we wish to make a special appeal to parents for their assistance during the coming year, in making our "percentage of attendance" much larger, thereby increasing to no small extent our resources. Let us bear in mind that every absence means just so much loss in money to the district, besides the gradual detriment to the educational progress of the child. We do hope and trust that this part especially of this report may make a deep impression upon the minds of all and that through our united efforts our next Roll of Honor shall be such as to cause the district to be justly proud.

Miss Jane C. Burley has presented a flagpole of good height for the new building and it will be erected in the spring. The gift is very acceptable and much appreciated. The teachers' room is proving quite an educational help in various ways. It has been very artistically furnished through the generosity of Mrs. A. W. Mitchell.

Mrs. H. M. Underhill has presented to Room No. 4 two beautiful pictures for which we are very thankful.

All these gifts have had a beneficial tendency in impressing on the minds of the pupils the outside interest in their education.

Prof. Frederic T. Johnson, who had been principal of our High School for the last fourteen years, resigned at the beginning of the present school year to accept a position as Superintendent of Schools in Pittsfield, N. H. Professor Johnson was not only a good teacher, but also an exemplary citizen. Your committee accepted his resignation with much regret.

The courses of study taken by the grades, as closely as we are able, are those laid out by the state department of public instruction for elementary schools. Thoroughness is being more and more insisted upon. Our objective is quality rather than quantity. Parents are urgently requested to make more frequent visitations. Let us impress upon our children more often our interest in their intellectual development. We wish to call special attention in this report to the proper care of school property. This must be enforced and any pupil who defaces or injures school property will be presented with a bill for the payment thereof. A pupil mischievous in this regard *will not be tolerated*. Heretofore it has been the custom, for several years for the eighth grade pupils of the West Epping school to take that grade at Epping, but it has seemed best to discontinue that custom and continue as formerly the eighth grade at the West Epping School. By the latter method the results on the whole are by far more satisfactory. At this time your committee wish to express their appreciation of the faithful co-operation of teachers

and also of parents and those interested in our schools in the school work of the past year.

Respectfully submitted,

D. WEBSTER DOW,
WILLIAM S. MASON,
AUGUSTUS D. BROWN,

Members of School Board.
